Subject: email from Colorado Basin Resource Council

Hi Howard,

I hope you're having a good trip and that Devon is better at the tuba than I was at the sax at his age. There aren't many sounds worse than someone learning to play saxophone for the first time....actually there's this noise the vulturine guineafowl makes...anyway...

I just wanted to let you know that I gave your email to Deb Thomas from the Colorado Basin Resource Council and that you'll be getting an email from John Fenton with the Pavillion Area Concerned Citizens. They had some updates they wanted to send you. I'm still figuring out the protocol but Trish and Deb said I could give it out then to let you know who I gave it to and what they'll be emailing you about. If you want me to do something different with requests for your email address let me know.

Shaina
